

# Cyber Security Compliance

Canadian Owned and Operated

## Managed Compliance

At TruPoint, we empower your organization to navigate the intricate world of compliance with ease and confidence. Our Compliance Management Services and cutting-edge technology deliver robust solutions to ensure you meet and exceed cybersecurity standards and insurance requirements.

Our software simplifies compliance by mapping IT policies, security standards, and insurance criteria to actionable controls. Seamlessly integrate with your IT infrastructure to automate compliance tracking, identify deficiencies, and manage risks efficiently.

## TruPoint Cloud Platform

Enjoy peace of mind with the highest levels of encryption, authentication, ransomware protection, and disaster recovery built into our cloud-based DaaS, powered by Citrix. Achieve secure remote access and enhanced flexibility for your team, making remote work safer and more efficient.

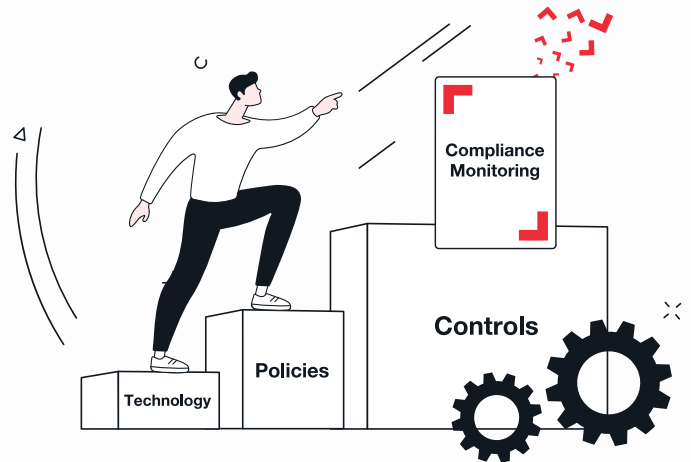

- Strong Encryption for Transmission and Access
- Daily Full Backups w/30 Day Retention
- SSAE and PCI Certified Facilities

## Unbreakable Evidence Trail

Prove compliance during audits with detailed evidence logs generated by our technology. Streamline the off-boarding process, annual training, and other critical compliance tasks, making them more accurate and foolproof.

- IT Policies and Security Standards
- Controls, Forms, and System Logging
- Initiate Training, Track Completion
